

Dashboard chosen by Peugeot-Sport for 207 Spider

# TB100 dashboard - track version

## Features:

**Data display** on **backlit** graphic display with excellent contrast even in **sunny conditions**.

The data to be displayed are in **big characters** so the pilot can concentrate on the essentials.

- **selected gear** (sequential or traditional gear box),
- **engine rpm**,
- **oil pressure**,
- **water temperature**,
- **oil temperature**.

**Lap timer** can record 99 laps with magnetic or infrared sensor.

Time is displayed in a **“popup” window**, with preceding lap and best lap gap.

A remote button placed on the steering wheel or on the console allows to recall this window.

The inputs are compatible with VDO sensors. For other sensors, contact us.

**Engine operating data** are **stored** (maximum rpm and temperatures, minimum pressure, operating time ...).

The **configurable sequential shift light** features 5 high brightness LEDs (green, orange, red).

A **high brightness LED flashes** when an **alert occurs** (excessive temperature, low oil pressure ...)

## A CRISARTECH dash gives you:

- an attractive performance / price ratio,
- an excellent readability whatever the ambient light,
- **intuitive ergonomics**: pictograms use, configuration menus in 3 languages (F, GB, SP),
- configuration settings in non-volatile memory, with no battery,
- **the possible customisation of all functions**: displays, sensors, wiring harness, fastening, front panel keypad. Auxiliary functions can be added (stopwatch, trip master, power shift, fan control, fuel pump, ...). Contact us.

## Options:

- **ECU link** by **CAN bus** or **RS232** to display engine parameters. Contact us,
- **black box feature** (operating time, over-revving, over-heating...) with minute time stamping. Reading and saving with free PC software.

## Technical data:

- alimentation: 8 to 16 Volts, about 0.1 A.
- screen: real graphic display 75 x 36 mm,
- case: polycarbonate, 123 x 98 x 32 mm, 200 g.

Dash can be placed on the board or in the steering wheel
